Appendix 1

This appendix lists all sources forums from which NSIs were drawn, organized into the 18 thematic categories outlined in Section 6.3.2, with discussion counts for each. Figures refer to individual discussions rather than NSIs; some discussions contain more than one NSI, so totals differ from the corpus count. As noted in Section 6.3.2, the forums are publicly accessible without registration, and their names are reported in full to ensure transparency and replicability. The categorization reflects an interpretive grouping for analytical purposes and is not intended as a definitive or exhaustive classification.

	<p><i>I think that's perfectly ok</i> <i>I suspect it may be a juvenile Green shieldbug</i> <i>I think it is an Elephant Hawk Moth</i> <i>I don't think so</i> <i>I don't think the juddering is coming through the clutch peddle</i> <i>I wonder if this could be a Dot Moth caterpillar</i> <i>I don't think you can assume that either is such an issue for you</i> <i>I believe if you receive money over time, the player receives his percentage of this as well</i> <i>I believe it's to do with the downregulating effect</i> <i>I believe any GAD test over 50 indicates an autoimmune condition</i> <i>I would imagine it's the same protocol on most joysticks</i> <i>it does seem to me that in the modern football game, (it's almost a non-contact sport now), being lighter is the best way to be</i> <i>it looks to me that Waxwing like to perch relatively high up in bare trees</i> <i>i know that your body naturally makes cholesterol</i> <i>if there is a +/-6mm tolerance on ground level, I can't see why there would be any other specification in your case.</i> <i>i think fatalities are quite high</i> <i>I think this is a factor for ppl with this genetic variation</i> <i>would have thought shredded wheat might not be so good re choking</i> <i>I didn't think the Windows 10 IoT core even had access to the GPU</i> <i>I think that the answer to your first two questions is (...)</i> <i>I would guess it's limestone</i> <i>I guess it belongs in Ichneumonidae</i> <i>I think any of those scenarios sounds feasible</i> <i>I beleive rovers counter sued???</i> <i>have experienced that different parts of the world may have different properties within the same grade of Kerosene</i> <i>I'd guess a telemark is something to do with the binding, or maybe the way they slow down after landing (resembling a telemark skier) perhaps</i> <i>I imagine a broken ankle strap could lead to a broken heel</i> <i>i do know that digestion effectively starts in the mouth with your saliva</i> <i>I have learnt enough to realise that we use words slightly differently</i> <i>noticed in that example that the RGB Values have the same number of decimal places as the coordinates</i> <i>No way they can make money on Amazon in large amounts even with a hacked account I don't think</i> <i>I don't think you can treat the DBS Check as a disbursement for VAT purposes because you receive the benefit of the check, not your customer</i> <i>I think it is about whether you PACS supplier stores annotations made on PACS in DICOM or proprietary format</i> <i>I assume I should just send it back under warranty.</i> <i>I think (and hope) it was money well spent</i> <i>I wonder which particular decoder is fitted to the DC</i> <i>I see the benefit of it</i> <i>I see the good side of it</i> <i>I guess there is something hidden</i> <i>I suspect your reviews are .com ones</i> <i>thought it could be a horse fly or Wasp mimic</i> <i>I think it's an acceptable explanation</i> <i>I think what is happening is this (...)</i> <i>I think there is an implicit conversion in this line</i> <i>I would assume all vehicles would have to have a defined hook</i> <i>I believe some forms of radiaton can travel faster</i> <i>I doubt you'd get very far with any legal claim</i> <i>I know it can be done</i> <i>it would surprise me if they could vomit</i> <i>I think arts work of all types has the advantage over sport here</i> <i>I think a few negative mentions on there about these sellers might give you a little satisfaction</i> <i>I have read that hamstring stretches can ease middle back discomfort</i> <i>[I] have read on here that some plans are more suitable than others for people with diabetes</i></p>

A. Identity questions

Participants were instructed to respond in more than one word rather than simply *yes/no*.

Participant	Are you an addict?	Are you a football fan?	Do you consider yourself a feminist?	Are you a vegetarian?	Do you think of yourself as a homophobe?	Are you a diabetic?	Do you identify as a homosexual?
P1	<i>depends on the substance</i>	<i>never ever</i>	<i>no, I'm afraid of women</i>	<i>yes a few hours per day</i>	<i>no, I don't like anyone</i>	<i>good chance</i>	<i>not always</i>

I eat meat on a regular basis.</i>	<i>Definitely not.</i>	<i>No, although my dad is...</i>	<i>No, I identify as heterosexual.</i>
P5	<i>to cigarettes</i>	<i>at times, maybe</i>	<i>of course</i>	<i>for 5 years</i>	<i>I'd rather die</i>	<i>I am not</i>	<i>do you?</i>

P7	<i>I have a tendency towards an addictive personality, but in general I am not an addict.</i>	<i>I have never been a real football fan. I do enjoy watching the big tournaments...</i>	<i>I believe in gender equality... but I would not describe myself as an active feminist.</i>	<i>Definitely not – I believe in a healthy balanced diet that includes meat.</i>	<i>No, I have several gay friends...</i>	<i>I am not diabetic, nor is anyone in my immediate family.</i>	<i>No, I identify as heterosexual.</i>
P8	<i>Who is not</i>	<i>no, I'm a Coventry fan</i>	<i>Forty two</i>	<i>More meat please</i>	<i>I don't vote UKIP</i>	<i>will be soon</i>	<i>I have no interest</i>

B. Claim–reaction prompts

Participants were instructed to respond reusing the word after “a/n” in the prompt.

Participant	<i>You're an expert in legal questions</i>	<i>You're such a misanthrope</i>	<i>You're a vegan</i>	<i>You're a pessimist</i>	<i>You're a socialist</i>
P1	<i>I'm not an expert</i>	<i>yes, misanthrope to the max</i>	<i>no but many of the animals I eat are vegans</i>	<i>I'm not a pessimist, I'm a realist</i>	<i>I wish I was a socialist</i>
P2	<i>Yeah, I'm also an expert in levitation and turning rocks into gold.</i>	<i>I can be quite misanthropic sometimes.</i>	<i>I most certainly am not a vegan! How dare you!</i>	<i>I wouldn't characterize myself as a pessimist.</i>	<i>It's impossible for a hard-core capitalist like me to be a socialist.</i>
P3	<i>I'm not an expert in legal questions.</i>	<i>Oh God no, I hope I'm not a misanthrope.</i>	<i>I'm not a vegan.</i>	<i>I'm not a pessimist.</i>	<i>I agree with a lot of the ideas behind socialism but I'm not a socialist.</i>
P4	<i>I am most definitely not an expert in legal questions.</i>	<i>I would not consider myself a misanthrope due to my lack of misanthropic tendencies.</i>	<i>I am not a vegan; I eat animal products on a regular basis.</i>	<i>I would not consider myself a pessimist; I am more of an optimist.</i>	<i>I cannot be considered a socialist due to my capitalist tendencies.</i>
P5	<i>expert(ly) terrible in legal questions</i>	<i>misanthrope</i>	<i>a vegan is</i>	<i>no I'm not a pessimist, I just hate the world</i>	<i>viva la (socialist) revolution</i>
P6	<i>No I am certainly not an expert in legal questions</i>	<i>I am absolutely not a misanthrope</i>	<i>I am not a vegan</i>	<i>Sometimes I am a pessimist sometimes I am not</i>	<i>I am a socialist</i>
P7	<i>I have little experience as an expert in legal questions.</i>	<i>I'm not sure what a misanthrope is, so I cannot say whether I am one or not.</i>	<i>I am not a vegan, nor a vegetarian.</i>	<i>I like to believe I am more of an optimist than a pessimist.</i>	<i>I lean more towards being a socialist than most other political ideologies.</i>
P8	<i>about time someone recognised</i>	<i>whatsva misanthrope</i>	<i>The vegan diet is stupid</i>	<i>I'm a pessimist so I'm...</i>	<i>(blank)</i>
P9	<i>about time someone recognised</i>	<i>whatsva misanthrope</i>	<i>The vegan diet is stupid</i>	<i>I'm a pessimist so I'm always pleasantly surprised</i>	<i>socialist values are interesting</i>
P10	<i>I am not an expert in legal questions</i>	<i>I am not a misanthrope</i>	<i>I am not a vegan</i>	<i>I am not a pessimist</i>	<i>I do have some socialist views</i>
P11	<i>Sometimes</i>	<i>occasionally</i>	<i>never</i>	<i>maybe</i>	<i>absolutely</i>
P12	<i>no I am not an expert in legal questions</i>	<i>how am I a misanthrope?</i>	<i>never been a vegan</i>	<i>I am a fervent pessimist</i>	<i>damn right I am a socialist</i>
P13	<i>nopey nope</i>	<i>sometimes when I study, yes</i>	<i>bingo</i>	<i>no bingo for u</i>	<i>such a drastic word</i>
P14	<i>I could never be considered an expert in legal questions</i>	<i>A misanthrope, I am not, I love the world</i>	<i>I am not a vegan and never will be</i>	<i>Yes I am a pessimist, but it is just human nature</i>	<i>I am not a socialist, in fact I don't really know what I am</i>
P15	<i>I wish I was an expert in legal questions.</i>	<i>No, I am not a misanthrope.</i>	<i>No, I am not a vegan.</i>	<i>I try not to be a pessimist.</i>	<i>I have some socialist beliefs.</i>
P16	<i>By no means am I an expert in legal questions.</i>	<i>To be a misanthrope is not at all in my nature.</i>	<i>I enjoy a diverse diet too much to be a vegan.</i>	<i>While I am often a realist, I never consider myself a pessimist.</i>	<i>While I prefer a security network for all of us, I do not label myself in a charged way as a socialist.</i>

Table A12: Participant responses to claim–reaction prompts.

C. Self-expression prompts

Participants were instructed to form a sentence relating themselves to the expression in brackets.

Participant	<i>I (gardener)</i>	<i>I (politician)</i>	<i>I (optimist)</i>	<i>I (nerd)</i>	<i>I (stamp collector)</i>	<i>I (cancer patient)</i>	<i>I (philosopher)</i>	<i>I (slut)</i>	<i>I (chaotic person)</i>
P1	<i>I killed the gardener</i>	<i>I was born to be a politician</i>	<i>I am a realist, not an optimist</i>	<i>I wish I was a nerd</i>	<i>I failed to be a stamp collector</i>	<i>I probably end up being a cancer patient</i>	<i>I like the word philosopher</i>	<i>If I was a girl, I would be a little bit of a slut</i>	<i>I am a very chaotic person, in</i>

The Pragmatics of Negative Self-Identification: *I Am What I'm Not*.

									some ways
P2	Gardening is half interesting, half boring.	I distrust most politicians.	I am often an optimist.	I love the fact that it's ok to be out and proud about being a nerd now!	I could never be a stamp collector.	My father was a cancer patient.	I originally wanted to go to college in order to become a philosopher.	I think the term slut is reflective of antiquated, sexist thinking.	I am often a chaotic person.
P3	I'm not a natural gardener.	I would never want to be a politician.	I think it's important to be an optimist – at least most of the time.	I think that nerd is a pointless word.	I don't know any stamp collectors.	I am not a cancer patient.	I am not a philosopher.	I think that slut is also a pointless word.	I am sometimes a bit of a chaotic person.
P4	I would not consider myself a keen gardener; plants tend to wither and die when left in my care.	I harbour a deep-rooted mistrust of today's politicians.	I am generally an optimist; I like to see the positive in things.	I would not consider myself a nerd, but I do have a few minor obsessions.	I am related to a stamp collector; my father collects stamps.	I feel extremely sorry for cancer patients and the suffering that they have to go through.	I consider myself something of a philosopher; I enjoy reading philosophical tracts in my spare time.	I think the expression "slut" is generally used in a very unpleasant way in order to shame women.	I would not consider myself a chaotic person; I am generally quite neat and tidy.
P5	I wouldn't mind mending flowers	I think of you as a politician I don't like	I think an optimist and pessimist are one in the same	I eat nerd with an s (nerds: Australian confectionary)	could I be that boring?	I feel this is quite serious	I've never met a philosopher, only idiots	I find them easy at times	I have a fair bit of control most the time
P6	I once worked in a greenhouse	I would never be a politician	I am sometimes optimistic and sometimes pessimistic	I like to consider myself a nerd but do not know how accurate that consideration is	I've never collected stamps	I worry about becoming a cancer patient	I love philosophy	I once organised a protest in relation to slut shaming	I am sometimes chaotic
P7	I will probably enjoy being a gardener when I retire.	I have been told I could make a good politician. Which probably means I lie well	I try to think like an optimist.	When it comes to Lord of the Rings, Game of Thrones or Final Fantasy, I am a massive nerd.	I would not consider becoming a stamp collector.	I hope never to be a cancer patient.	I, like almost everyone, consider myself to be somewhat of a philosopher. So I think basically.	I do not believe in the word slut. People have the freedom to be as sexually promiscuous as they wish.	I am a chaotic person, in a chaotic time of my life in an ever increasing chaotic world.
P8	(blank)	(blank)	(blank)	(blank)	(blank)	(blank)	(blank)	(blank)	(blank)
P9	I work too much	I believe in personal freedom and centralist policy	I think things will get better	I spend too much on tech	I can't let go of old video games	(blank)	(blank)	(blank)	(blank)
P10	I am not a keen gardener	I am not a politician	I am not an optimist	I can be a nerd	I am not a stamp collector	I am not a cancer patient	I am not a philosopher	I am not a slut	I am not a chaotic person
P11	Sometimes	never	true	false	untrue	unsuitable	never	wrong	variably
P12	I am not a gardener	I am not a politician	I am not an optimist	more of a jock than a nerd	never been a stamp collector	never been a cancer patient but have	not intelligent enough to be a philosopher	no one would describe me as a slut	sometimes I can be a chaotic person

The Pragmatics of Negative Self-Identification: *I Am What I'm Not*.

						<i>close people who have been</i>			
P13	<i>hate gardening.</i>	<i>would be a great politician</i>	<i>am optimistic as hell</i>	<i>never met a real nerd</i>	<i>wonder about these people. who finds comfort in pieces of paper with saliva on it???</i>	<i>would like to talk to cancer patients.</i>	<i>only after sex</i>	<i>was a slut. past tense. now in a happy long term relationship</i>	<i>could never date a chaotic person. neatness is greatness. it rhymed in my head...</i>
P14	<i>I am no gardener I promise, plants and I do not mix</i>	<i>I do not get involved with as much politics as I should, they are all liars</i>	<i>I wish I was an optimist</i>	<i>I am a nerd and I have a thirst for knowledge.</i>	<i>I have no desire to collect stamps</i>	<i>I know too many of these</i>	<i>I am a thinker in life too</i>	<i>I don't like the word slut, I prefer the term 'active in one's sexual experimentation'</i>	<i>I am most definitely a chaotic person, in body and mind, I am a walking nightmare</i>
P15	<i>I am a terrible but enthusiastic gardener.</i>	<i>I do not trust politicians.</i>	<i>I endeavor to be an optimist.</i>	<i>I am married to a nerd.</i>	<i>I do not know any stamp collectors.</i>	<i>I hope I will never be a cancer patient.</i>	<i>I am no great philosopher.</i>	<i>I hope I was never a slut.</i>	<i>I can be a chaotic person.</i>
P16	<i>Only now am I developing a passion for plants but caring for a large garden is too much of a burden for me.</i>	<i>I have gone through phases with strong political views, but now I am a realist and I accept more things than many activists.</i>	<i>I am proud to be an optimist, and I believe this attitude actually contributes to the emergence of situations consistent with that optimism.</i>	<i>Because of my technical education, being a nerd is sometimes natural and fun!</i>	<i>I have never had the inclination to collect items such as stamps.</i>	<i>To deal with cancer emotionally is one of the most difficult human challenges to face.</i>	<i>When I was younger I considered philosophy only academically, but now it is a genuine part of my life.</i>	<i>Of course there is a slutty side to each of us, and it should be accepted instead of hidden.</i>	<i>When I am brainstorming my thoughts are usually more chaotic than others, but happily it often turns out that my ideas are more creative!</i>
