

**Task IM-7.8: Exercise on Revaluation**

(Neubewertung)

ZEHLENDORF Ltd. is founded by a share issue of 20,000 shares at 5.00 EUR face value on 1.01.20X4. ZEHLENDORF Ltd. is an internet service for poster printing. The business buys 10 printers “Mega-Druck” on 3.01.20X4 at cost of acquisition of 4,000.00 EUR each. Depreciation is along declining method at 1.67% per month based on the carrying amount at the months’ beginning. One printer has problems and is sent back to the supplier on 30.06.20X4. The brand new replacement printer arrives 3 days later at ZEHLENDORF Ltd. The company doesn’t get charged for the replacement of the printer. Consider it as a discount.

On the 30.11.20X4 all printers get revalued to 120 % of their carrying amount.

ZEHLENDORF Ltd. works on 400,000 print jobs and earns a profit (without consideration of depreciation) of 7.50 EUR/job.

**Required: Prepare the PPE-relevant T-accounts for ZEHENDORF Ltd. in 20X4. Prepare an income statement, a register of non-current assets and a statement of changes in equity under a consideration of 50 %-reserves : 50 %-profit-carried-forward policy for the annual surplus. (No balance sheet and no Statement of cash flows required)**

All transactions are on cash.

**Solution:**

(1) The share issue leads to the bookkeeping entry below:

<b>DR Cash/Bank</b> .....	<b>100,000.00 EUR</b>
<b>CR Issued Capital</b> .....	<b>100,000.00 EUR</b>

(2) Acquisition of printers as considered to be posted to one PPE-MegaDruck account. The amount is  $10 \times 4,000 = 40,000.00$  EUR. The gross amount equals to  $40,000 \times 120\% = 48,000.00$  EUR.

<b>DR P, P, E-MegaDruck</b> .....	<b>40,000.00 EUR</b>
<b>DR VAT</b> .....	<b>8,000.00 EUR</b>
<b>CR Cash/Bank</b> .....	<b>48,000.00 EUR</b>

(3) Depreciation for 6 months for all printers leads to a carrying amount of  $40,000 \times (1 - 1.67\%)^6 = 36,155.65$  EUR. Accordingly, depreciation amounts to  $40,000 - 36,155.65 = 3,844.35$  EUR.

<b>DR Depreciation</b> .....	<b>3,844.35 EUR</b>
<b>CR Acc. Depr.</b> .....	<b>3,844.35 EUR</b>

The replacement of the printer doesn’t affect the bookkeeping records as the new value of the printer is compensated by the discount received.

(4) Depreciation is resumed in July and the carrying amount as at the end of November 20X4 amounts to  $36,155.65 \times (1 - 1.67\%)^5 = 33,269.63$  EUR. Depreciation accordingly is  $36,155.65 - 33,269.63 = 2,886.02$  EUR.

<b>DR Depreciation</b> .....	<b>2,886.02 EUR</b>
<b>CR Acc. Depr.</b> .....	<b>2,886.02 EUR</b>

(5) After depreciation a revaluation follows. The bookkeeping entry is along a net replacement bookkeeping. The new carrying amount after depreciation equals to  $120\% \times 33,269.63 = 39,923.56$  EUR.

<b>DR Acc. Depr.</b> .....	<b>6,730.37 EUR</b>
<b>DR P, P, E @valuation</b> .....	<b>39,923.56 EUR</b>
<b>CR P, P, E @cost</b> .....	<b>40,000.00 EUR</b>
<b>DR Revaluation Reserves</b> .....	<b>6,653.93 EUR</b>

(6) ZEHLENDORF Ltd. posts the deferred tax liabilities to an extent of  $0.30 \times 6,653.93 = 1,996.18$  EUR.

<b>DR Revaluation Reserves</b> .....	<b>1,996.18 EUR</b>
<b>CR Def. Tax. Liab.</b> .....	<b>1,996.18 EUR</b>

(7) ZEHLENDORF Ltd. writes off the printers for December according to their carrying amount. (IFRS):  $39,923.56 \times 1.67\% = 666.72$  EUR.

<b>DR Depreciation</b> .....	<b>666.72 EUR</b>
<b>CR Acc. Depr.</b> .....	<b>666.72 EUR</b>

(8, 9) Accordingly to the percentage of depreciation there is dissolving of revaluation reserves and deferred tax liabilities required. Dissolving deferred tax liabilities equals to  $1,996.18 \times 1.67\% = 33.34$  EUR. Dissolving revaluation reserves equals to  $6,653.93 \times 1.67\% = 111.12$  EUR.

<b>DR Def. Tax. Liab.</b> .....	<b>33.34 EUR</b>
<b>CR Revaluation Reserves</b> .....	<b>33.34 EUR</b>

<b>DR Revaluation Reserves</b> .....	<b>111.12 EUR</b>
<b>CR Retained Earnings</b> .....	<b>111.12 EUR</b>

(10) The profit without consideration of depreciation is  $400,000 \times 7.50 = 3,000,000.00$  EUR.

<b>DR Cash/Bank</b> .....	<b>3,000,000.00 EUR</b>
<b>CR Profit and Loss</b> .....	<b>3,000,000.00 EUR</b>

With regard to the tax law the December's depreciation is  $(40,000 - 6,730.37) \times 1.67\% = 555.60$  EUR. The total annual depreciation for taxation equals then to  $6,730.37 + 555.60 = 7,285.97$  EUR.
